### Reference Letter: Camjet

This letter serves to confirm that GeoAfrika Surveys has appointed Camjet to undertake work for various contracts over the past 5 years. The most recent being at the Toyota South Africa Plant in Prospecton. The work undertaken has been CCTV pipe camera survey work and High-Pressure pipe jetting, GIS Mapping and Asset Management for numerous stormwater & water systems within the eThekweni

We have found Camjet extremely professional in their method of work, with their output product generated being of a high standard. They have completed all projects within the time frames, and we would recommend them to any company which requires similar work.

Should you require further information or have any queries relating to the information above, please do not hesitate to contact me.

Regards

B. Vadivalu

Director
